# ABOUT CHILLI IQ

## ALWAYS FIRST ... ALWAYS EVOLVING

We are a leading creator of conferences and summits who aim to bring together great minds with avid learners amongst the thought-inspiring atmosphere of leading venues.

Chilli IQ has many years of collective experience in the area of creating and developing innovative conferences and summits for the changing business environment. This is not though what differentiates us from the crowd, what makes us unique is our modus operandi.

We value quality and strive to ensure that every aspect of our events reflects this – from the choice of speakers, the venue and the genuine attention to detail.

Our main objective is to lead the field in the area of knowledge delivery and as this is a fluid process we are constantly seeking new avenues and evolving to make sure we never just settle.

We ensure that all who partake in the Chilli IQ conference experience – whether it be as a delegate, a speaker, a sponsor or an endorsing association – maximise their investment and attain a higher level of understanding and awareness of the chosen business theme.

“

***ChilliIQ conferences are always relevant and presentations provide content that you didn't even know you wanted to know! Great excuse to network with old contacts and forge new ones.***

”

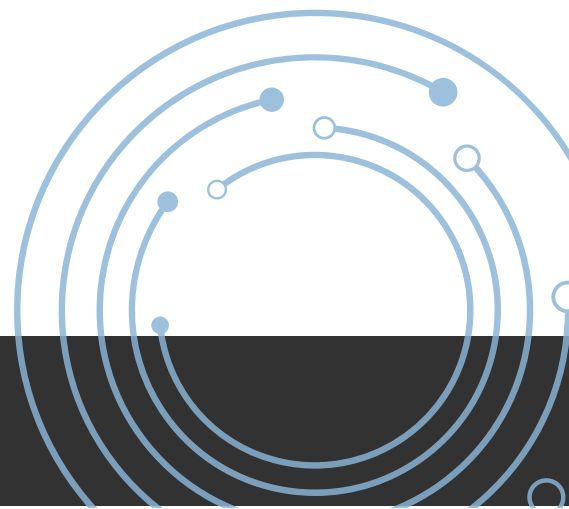

# ABOUT THE EVENT

## CYBERSECURITY - BEYOND MITIGATING RISKS

The importance of cybersecurity and its broader risks have become a social phenomenon. Strong demands from the public, employees and investors and more governmental regulations have strengthened and motivated organisations to track and report their cybersecurity goals. It has also become a strong factor in company's environmental, social and governance (ESG) efforts as a business requirement. Business clients and customers are also showing concern and interest in the cybersecurity position of organisations they conduct business with. Cybersecurity and data privacy and breaches is increasingly a major concern for all it is a major strategic business goals.

The Cybersecurity, Data Breach and Data Privacy Forum will address these latest issues relevant to all firms, today. The programme has been acutely researched to highlight the latest technology and strategies in cybersecurity and will discuss ways firms can combat these challenges.

**Gartner research shows that 88% of boards regard cybersecurity as a business risk rather than solely a technical IT problem.**
